NOVELTIES

for 1929

Large Flowering Types

JUSTRITE. The color is a fine shade of true pink. We consider this one of the most valuable 'Mums we have originated. In size and form it resembles a well grown Chieftain, but it blooms three weeks earlier—its blooming period being from Oct. 12th on. Has medium-sized foliage on a rigid stem and grows four feet from early June planting. Coming ahead of the midseason glut gives this variety extra value. Take terminal bud. Scored 88 points by C. S. A. Committee.

CELESTRA. The color is clear bright yellow. Plant this to follow Gold Lode. Blooms Oct. 12th and finishes before Golden Glory comes in. Late crown and terminal buds being slightly larger. Can be grown several blooms to the plant without changing the perfect form of the blooms. Grows five feet from early June planting. Fine stem clothed with medium-sized foliage. Scored 88 points by C. S. A. Committee.

MARGARET GRAHAM. A wonderful pure white variety, coming into bloom Nov. 15th, following Snow White. Round incurved form with broad waxy petals. Comes unusually uniform in size, which is large commercial. Grows four feet high from early June planting. Strong stem and abundant, medium size foliage. Won C. S. A. silver cup at Baltimore and Chicago.

The above are three new varieties being disseminated this year, originated by Baur-Steinkamp & Co., Indianapolis, Ind.

All above, \$25.00 per 100, \$200.00 per 1000

Pompons and Singles

SUNBURST. A two-tone Pompon, yellow center, slightly darker petals. Makes a perfect spray, useful where the artist wants to make up something different. We noticed the ladies choose this variety when visiting our greenhouses in selecting a table decoration. \$25.00 per 100, \$200.00 per 1000.

MRS. HERBERT HOOVER. A beautiful shade of orange-bronze, sporting from the well-known Single, Mrs. E. D. Godfrey. \$8.50 per 100, \$75.00 per 1000.

RIO RITA. A pure yellow anemone. Flowers Nov. 10th to 15th. \$8.50 per 100, \$75.00 per 1000.

Large-flowering 'Mums

GENERAL COLLECTION

A letter before each variety indicates, for quick reference, the season of flowering—early, late, etc. The date after each variety is approximate date of flowering.

E—Early. To get best flowers, it is important to order early and plant early in May or June for best results. If buds are not formed on dates shown, reserve the first bud appearing after that date.

M—Midseason. When seasons are favorable, some of these will bloom a few days before November 1st.

L—Late. Late flowering varieties usually have best blooms about November 10th, if early buds are taken and the season is favorable. These varieties may be had for later blooming by selecting the later buds and planting later.

T—Thanksgiving varieties usually flower shortly before Thanksgiving, but can be held, in most cases, for Thanksgiving sales.

"C. S. A. Certificate" is the award of the "Chrysanthemum Society of America."

See additional notes regarding culture, at end of this group of Large-flowering 'Mums.

SELECTING THE BUDS OF 'MUMS

Generally the best flowers come from the second crown and terminal buds. The crown bud may be distinguished by the fact that it appears early and is surrounded by vegetative growth; that is, leaf shoots, not buds. Crown buds are earlier, usually produce the larger bloom and more petals in the bloom. Color, however, is not as intense as from a terminal bud.

A terminal bud is late and is surrounded by other buds. It is the terminus of a year's growth. It is best because of a more intense color in the bloom and better foliage. The flowers are smaller and in some cases not as double as from a crown bud.

General Information

PRICES: Prices are for rooted Cuttings, which we believe to be more satisfactory than potted plants. Prices are subject to change without notice, also subject to crop failure.

ORDER EARLY: It is to your advantage to let us know as early as possible what you will want. Help us to help you by ordering early.

OUR SERVICE: We want to supply you the best varieties suitable for your business. Consult us. We will give you expert advice so far as we can. The information in this list regarding the date of taking bud, height of bloom and flowering dates and descriptions will be helpful to you. **SAVE THIS LIST FOR REFERENCE.**

SHIPMENTS: As soon as properly rooted, shipments are made by Parcel Post, if it is a small package, or express if a large order. If stock is not in good condition on arrival, promptly notify the carrier and advise us immediately. While we do not guarantee safe arrival, we feel certain that you will be satisfied with the stock and packing.

We do not warrant in any way, expressed or implied, the contents or the description, purity, productiveness or any other matter of any seeds, bulbs or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to the above conditions, we make this sale at the moderate prices at which we sell our goods.
